2026

KUCHENIQ

We believe a truly exceptional kitchen is never just about cabinets. It's about creating a space that feels functional and quietly luxurious.

Our premium German cabinetry brings enduring function to the home. Whether you are planning a kitchen, a vanity, a custom closet, or a sideboard, our approach remains consistent: precise engineering, beautiful materials, and a seamless process.

This guide brings together everything you need to plan, choose, and install a kitchen with confidence: our collections, construction standards, design process, and practical guidance from inspiration to installation.

CABINETRY DESIGN

THE KUCHENIQ DIFFERENCE

TRANSFORMING SPACES: CABINETRY DESIGN, REDEFINED

We specialize in Premium German engineered cabinetry with our focus on exceptional quality across kitchens, closets, vanities and living spaces.

Every project begins with expert consult, a floor plan and 3D renderings - giving you clarity before commitment. Working with us means access to premium, German cabinetry at **25% less** than traditional showroom markups.

HOW IT WORKS

OUR VIRTUAL PROCESS

1. PROFESSIONAL MEASUREMENT

Our trusted local professionals across the country will measure your space to ensure accuracy from the start. It is \$99, credited toward your order if you proceed.

2. RECEIVE SAMPLES & SWATCHES

We send cabinet door samples so you can experience the quality and finish in your own home and lighting. We have color matched swatch samples as well.

3. FREE DESIGN & CONSULTATION

We offer expert design consultation with years of planning and experience. You receive a custom floor plan and 3D renders. Together we refined layouts, finishes and details - all from home.

4. WHITE GLOVE DELIVERY & INSTALLATION

We deliver your cabinetry with our on time guarantees. Our extensive network of professional installers handles each project with precision and care.

TRY BEFORE YOU COMMIT

SEE & FEEL THE QUALITY

See and feel the quality in your own home before making any design decisions. We offer door samples for **\$30** each, along with any color-matched

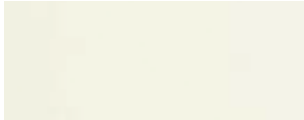

swatches, so you can experience the true finish and color in your own space. Samples may be credited toward your final order, giving you the confidence to choose with clarity and peace of mind.

CLASSIC COLLECTION

Designed and delivered in 2-4 weeks, in three refined finishes – blonde oak, white, and grey. Offered in a clean shaker profile with 2” rails and stiles or a sleek flat-front design that feels contemporary yet timeless.

THOUGHTFUL CONSTRUCTION & SUSTAINABILITY CONSIDERED

Our cabinetry is engineered in Germany with precision and longevity at its core. Every piece is designed to deliver strength and refined performance that lasts for decades.

- 10 year warranty on cabinetry, built to perform beautifully for 20 years & beyond
- Drawers are made to support up to 100 lbs with ease, while delivering a soft close
- Delivered fully assembled to ensure quality and structural integrity
- Customizable drawer sides in glass, wood, or metal for a personal touch

Unlike traditional solid wood, our engineered construction offers superior stability and resistance to warping or movement over time. By combining responsibly sourced materials with precise German engineering, we achieve a level of strength and consistency that often surpasses solid wood - while making a more sustainable choice. The result is cabinetry that feels substantial, performs reliably for decades and reflects a more thoughtful approach to quality and longevity.

CABINET INTERIORS

HARMONY OF DETAILS

Beautiful cabinetry should perform as well as it appears. We offer a considered range of interior organizers, pull-outs and custom configurations so every drawer and cabinet works efficiently.

From subtle under-cabinet illumination to thoughtfully placed interior lighting, these details bring both function and quiet atmosphere - enhancing daily life with precision and care.

FROM MEASUREMENT TO INSTALLATION

Professional measurement is available across the Country for \$99 and is credited toward your order if you proceed. A trusted local professional carefully measures your space to ensure accuracy from the very start.

We coordinate white-glove delivery, managing every detail with care. Our network of skilled installers - often the same professional who measured your space - completes the installation to the highest standard, so your cabinetry is fitted precisely and beautifully.
